

KT-LS02 Solar Speaker: Speaker with the built-in solar panel

Elevate your outdoor entertainment with our revolutionary solar-powered speaker, a true blend of sustainability and sound innovation. This unique speaker harnesses the power of the sun through its built-in solar panel, ensuring your music plays on without the hassle of constant charging. It’s an eco-friendly solution that keeps your speaker powered up and ready for any outdoor adventure.

But this speaker isn’t just about sustainable power; it’s a feast for the senses. Surround yourself with light and sound thanks to the 360° LED panels that envelop the speaker. These panels cast a warm, inviting glow, creating an enchanting atmosphere around you. Whether it’s a cosy night on the patio or a lively garden party, the LED illumination adds a magical touch to your outdoor spaces.
